📅 Feb **2022**  
itracademy  
ReactJS is a JavaScript library used for building reusable UI components. According to React official documentation, the following is the definition – React is a library for building composable user interfaces.

### Full Stack Developer

📅 Apr **2021**  
Route Academy  
The MERN Stack Developer course. The term MEAN stack refers to a collection of JavaScript-based technologies used to develop web applications. MERN is an acronym for MongoDB, Express, React, and Node.js. Mongo DB is a database system; Express is a back-end web framework; React.js is a front-end framework, and Node.js is a back-end runtime environment.
